

Guaranteed Asset Protection

Protect more members.

YOUR MEMBERS MIGHT THINK THEIR AUTO INSURANCE PROVIDES ALL THE PROTECTION THEY NEED IF THEIR VEHICLE IS TOTALED OR STOLEN AND NOT RECOVERED. They could be in for an unpleasant surprise.

While auto insurance covers the replacement value of the vehicle, your members are still liable for the difference between the insurance settlement and their remaining loan balance - which can amount to thousands of dollars.

With vehicle depreciation, loan terms extending, and the cost of repairs rising, chances that a “gap” will occur, between the remaining loan balance and insurance settlement, is greater than ever.

When you offer Guaranteed Asset Protection (GAP) to your members, you can help them worry less about how they’ll pay off their loan and replace their vehicle if it’s totaled. And, GAP can help your credit union manage your risk by reducing charge-offs, delinquencies and collection fees...all this while helping generate valuable non-interest income.

New vehicles depreciate, on average, 19% in 1st year.¹

Loan terms extending up to 84-months.²

U.S. car repair costs up 2.7% in 2016.³

Add Deductible Assistance⁴ to Your GAP Program

Deductible Assistance is designed to cancel part of your member’s loan or loan payment when a deductible is occurred through a comprehensive or collision claim with their primary auto insurer.

- Available when GAP is purchased
- Available limits of \$500 or \$1,000 per occurrence
- Single or multi-vehicle options (varies by state)
- Read more about [Deductible Assistance](#)

Optimize Your GAP Program with Enhanced Analytics

Identify key opportunities to optimize and efficiently reconcile your GAP program when you sign-up for our on-demand GAP reports that refresh nightly.

- Provides data needed to understand your credit union’s GAP production and make informed business decisions.
- Saves time and increases accuracy in reconciling GAP, making it easier to manage your business

Greater Efficiency For Your Credit Union
